ATTENTION: AKEBONO CUSTOMERS AND SALES PERSONNEL

Greetings everyone,

Today's bulletin will include two items: a new part bulletin as well as our price sheet which has a few changes that we want to explain.

First, we have added case pack quantity to each part number. This is based on the weight of each part number and helps efficiently stock parts if this option is chosen.

Second, the price list will have 93 part numbers that are going obsolete (O23) and we have added an additional POP CODE ranking for future obsolete part numbers. (O24) will indicate which items are going obsolete in 1 year.

Thank you for your support and Happy Holidays.

Thank you,
Tommy Rivera
